Dear Mr. Farley:

Subject: Amendment to the Clean Water Act Section 401 Certification (Water Quality Certification) for Bedrock Investments, LLC, Glendale Yard Project

File: Bedrock Investments, LLC, Glendale Yard Project
WDID No. 1B01034WNHU

On August 24, 2005, we received a phone call from Craig Newman, representing Kernen Construction, requesting an extension of the 401 Certification for the Bedrock Investments, LLC, Glendale Yard Project located on the south side of Glendale Drive, approximately one mile northwest of the City of Blue Lake in Humboldt County. Mr. Newman indicated that Kernen Construction could not proceed with the project due to delays with other permitting actions and the Water Quality Certification that was issued for this project on February 21, 2002 expired before the project was started. Mr. Newman indicated that the project has not changed and Kernen Construction has obtained the other required permits.

In response to Mr. Newman's request, this letter serves as an amendment to the Clean Water Act Section 401 Certification (Water Quality Certification) for the Bedrock Investments, LLC, Glendale Yard Project, allowing an extension of the authorization of this certification for an additional period of approximately 3 years, as outlined below:

Expiration: The authorization of this certification for any dredge and fill activities has been extended from the previous expiration date of December 31, 2003, to February 21, 2007. Conditions and monitoring requirements outlined in this certification are not subject to the expiration date outlined above, and remain in full effect and are enforceable.

I hereby issue an amendment to the Expiration section of the Bedrock Investments, LLC, Glendale Yard Project Water Quality Certification Order (WDID No. 1B00034WNHU)

California Environmental Protection Agency

certifying that the remainder of the Water Quality Certification sections of the Order are still valid. If you have any questions or comments, please contact Dean Prat at (707) 576-2801.
